

HMS Parent Volunteer Opportunities

Parent Name: _____

Student Name: _____

Home Ph. #: _____

Parent Cell Ph. #: _____

Parent Email Address: _____

Safety is a top priority for Fulton County Schools, and as such requires volunteers to register before coming into the school or classrooms and working with children. The volunteer registration and mandatory reporting training have been combined into a single portal. For those with children in multiple schools, you just need to go through this registration process once and will be able to designate all the schools at which you may volunteer.

To register, you will need your state issued identification and the make, model, year and license plate of any vehicle you may drive to the school. Have what you need? Then go to the [Fulton County Schools Volunteer Registration](http://www.fcsvolunteers.org) site now, <http://www.fcsvolunteers.org>. We highly recommend doing this as soon as you can, as it can take 48 hours for the system to be complete processing the registration.

I would like to volunteer to help:
(Check all areas where you would like to help)
